Dear Sir:

Enclosed herewith is a Supplemental Application Data Sheet ("Supplemental ADS") for entry into the above-identified application. This Supplemental Data Sheet updates the Application Information to include the serial number and filing date of the application.

In addition, this Supplemental ADS makes appropriate changes to the Applicant Information pursuant to the Petition to Correct Inventorship filed in the instant application on February 21, 2008. In that Petition, Applicants requested that Joern Drustrup, Anders Hjelholt Pedersen, and Hans Thalsgard Schambye be deleted as inventors of the application because their invention(s) were no longer being claimed in the application.

The Supplemental ADS also updates the Assignee Information. The instant application was originally assigned by the inventors to both Maxygen Holdings Ltd. and Maxygen ApS, as

shown by the Assignment documents recorded at Reel/Frame 013053/0323 and Reel/Frame 013053/0293, respectively. Maxygen Holdings Ltd. subsequently has assigned all of its interest in the application to co-assignee Maxygen ApS, as shown in the Assignment document recorded at Reel/Frame 017187/0043. Thus, Maxygen ApS is now the sole assignee of the application. This Supplemental ADS has been revised to indicate that Maxygen APS is the sole assignee of the application.

Inadvertent errors in the Domestic Priority Information were also corrected in this Supplemental ADS. Specifically, the Domestic Priority Information was corrected to specify that parent application USSN 10/084,706 was not only a nonprovisional of but more particularly an application claiming the benefit under 36 USC 119(e) of each of provisional applications 60/272,116, 60/343,436, 60/302,140, 60/316,170, and 60/357,945, as indicated in the Preliminary Amendment dated June 27, 2003 and the Utility Patent Application Transmittal Sheet filed on June 27, 2003 in the application.

Should the Examiner have any questions or comments regarding this submissions, please telephone the undersigned at 650-298-5809.

Respectfully submitted,

Margaret A. Powers
